Make these pages yours

Explore twenty different fruit scenes. Look at the shapes, choose your colours and enjoy each page at your own pace.

Print your book

Use this A4 edition with matching paper. Print at actual size (100%). For markers, print one-sided and place a spare sheet underneath. Physical printing has not been tested.

Use the colour guide

The separate guide uses exactly the same outlines with flat fills. Its colours are suggestions, not correct answers. Keep it on screen or print just the pages you want.

Try the Colouring Studio

The optional web Studio lets you fill, draw, undo, redo and save pictures. Open the ZIP, visit the address below, choose Load a bought book, then select the included .colourbook file. PDF and ZIP import are not supported.

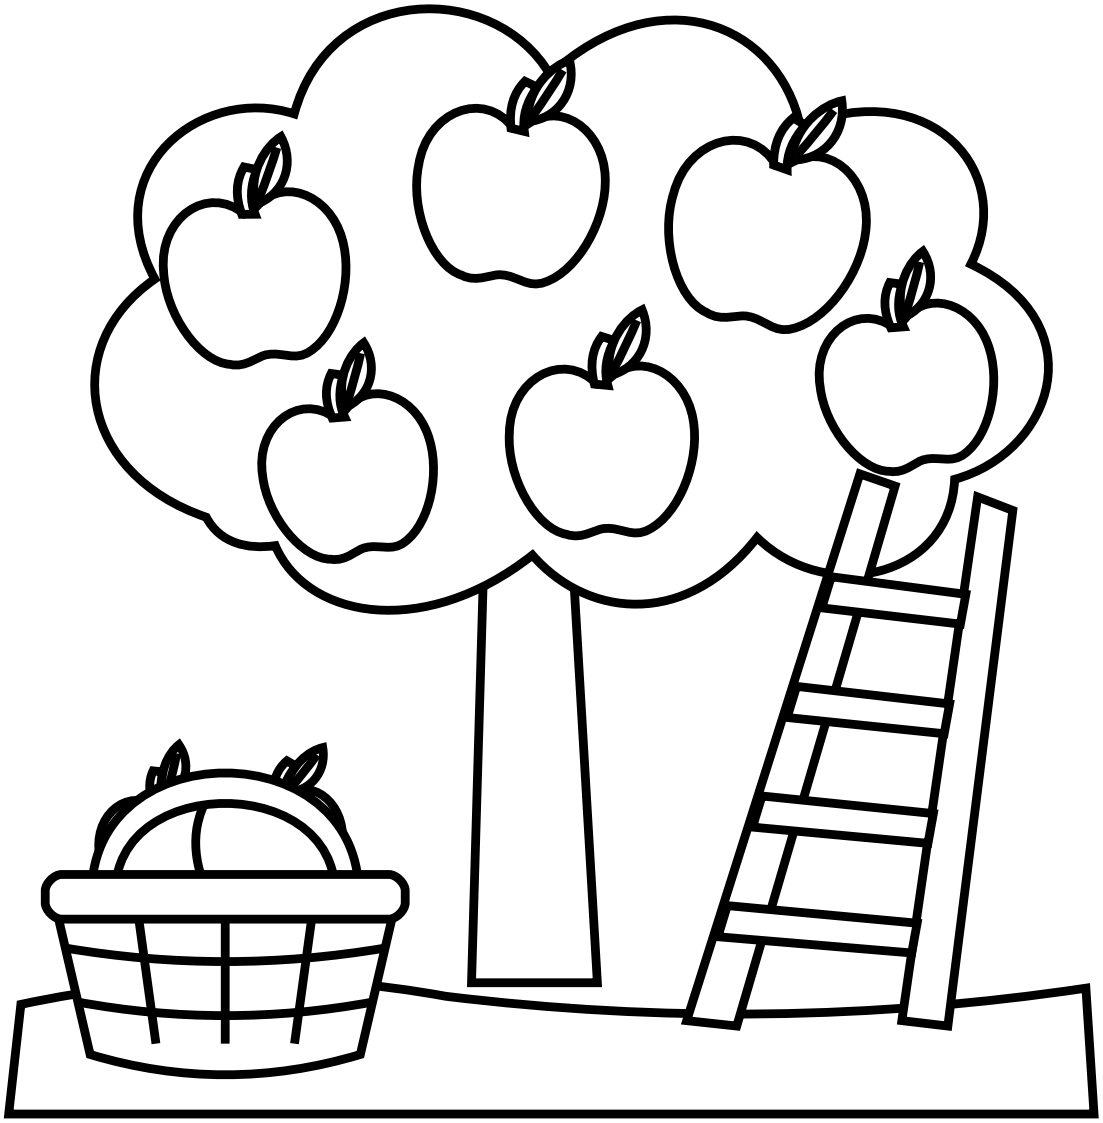
Pictures are stored in this browser on this device. Clearing browser data may remove them. Keep the companion file and export finished pictures as backups.

For one household or one educator's own noncommercial classroom or small group. Print reasonable copies for that use. Please do not resell or distribute these files.

Apple Orchard Morning



Choose your own fruit colours. They can be real or imaginary.

My fruit stall

Draw a fruit stall with your favourite fruit. Give each kind its own space and add a sign for your imaginary shop.

My name: _____
